

## REMARKS

With one exception, the claims have been amended to overcome the outstanding claim objections and § 112 rejections, without narrowing the scope of the claims.

The claims have been amended generally according to the examiner's suggestions, except that "multiplication coefficients" has not been changed to "multiplication coefficient." This is because, as claimed, a coefficient vector has multiplication coefficients. As a vector has a plurality of components, the coefficient vector has a plurality of multiplication coefficients. Accordingly, reconsideration and withdrawal of this objection/rejection, and the other objections/rejections is respectfully requested.

For the foregoing reasons, applicants believe that this case is in condition for allowance, which is respectfully requested. The examiner should call applicants' attorney if an interview would expedite prosecution.

Respectfully submitted,

GREER, BURNS & CRAIN, LTD.
